

Special Projects Announcement

The FY 2005 State Energy Program (SEP) Special Projects (SP) Solicitation Master Funding Opportunity Announcement was issued by the National Energy Technology Laboratory (NETL) on February 18, 2005, and was posted on the DOE Industry Interactive Procurement System (IIPS). The Master Funding Opportunity Announcement # is DE-PS26-05NT42396. Funding of approximately \$14,700,000 will be available under this opportunity in Fiscal Year 2005.

The Special Projects Sub-opportunities available in FY 2005 include (with Category number in parentheses):

- Clean Cities -- AFV Incremental Costs (01A)
- Clean Cities -- Refueling Infrastructure (01B)
- Clean Cities -- School Buses (01C)
- Clean Cities -- Coalition Support (01D)
- Clean Cities -- Idle Reduction Technologies (01E)
- Clean Cities -- Heavy Duty Hybrid Electric (01F)
- Industrial Technologies Program -- Industries of the Future (02)
- Building Energy Codes and Standards (03)
- Rebuild America (04)
- Building America (05)
- Federal Energy Management Program (06)
- Photovoltaic Building Integrated Micro-Inverter (07)
- Wind Energy -- Tall Towers (08A)
- Wind Energy -- Wind and Water (08B)
- Distributed Energy -- Regional Combined Heating and Power Applications
- Centers (09)
- Biomass (10)
- Clean Energy/Air Quality Integration (11)

Unfortunately because the Office of Clean Energy is overcommitted in terms of existing SEP and SP contracts for this coming year we will only accept Special Project applications for the categories of Clean Cities Alternative Fuels and Transportation. Persons who are interested in applying for Special Projects for either of these categories should contact Ellen Bourbon of our office at [ellen.bourbon @bpu.state.nj.us](mailto:ellen.bourbon@bpu.state.nj.us)
